Chairman Ed Fuierer reported on the site visit to 8 North Shore Drive that he and Bob Pelkey made after the last meeting.

Chairman Fuierer stated the following:

- 1. There was an outside contractor on site, who happened to be the contractor who did the original grading of the site.
- 2. It appears that the existing lot, to the east, next door is lower than all the other lots.
- 3. The pictures that were presented to the Board at the 06.03.2010 meeting were taken at least a year ago from spring.

## Miscellaneous Continued:

- 4. The catch basin at 8 North Shore Drive was silted in but has now been cleaned and is working fine, Bob Prince from the Building department visited the site on Monday morning after the major rain event and there was no ponding of water.
- 5. The home to the east has a french drain parallel to the lake on the south side of their patio which has sod over it, which impairs the water from getting to the french drain. The Chairman suggested to the homeowner he may want to put in a catch basin that is tied into the french drain.
- 6. When he and Mr. Pelkey left they felt that the issues where resolved.

Jack Barton reviewed with the Board what transpired at the Zoning Board of Appeals on the application for the Reed Subdivision. Mr. Barton stated that the application was tabled.
